

# Reiner 940 Handheld Inkjet Printer

**REINER**  
OFFICIAL UK DISTRIBUTOR

## fully portable inkjet printer

The Reiner 940 handheld inkjet printer provides a cost-effective solution for marking porous and non-porous products.

Text, graphics and barcodes can be printed at 300dpi resolution onto materials including card, paper, timber, plastics and metal.

The Reiner 940 is rolled across the product surface using a built-in encoder to adjust the printing speed to match the speed of operation.

Martek offers a range of printing guides to ensure straight printing of long messages and to allow printing on small and irregular-shaped products.

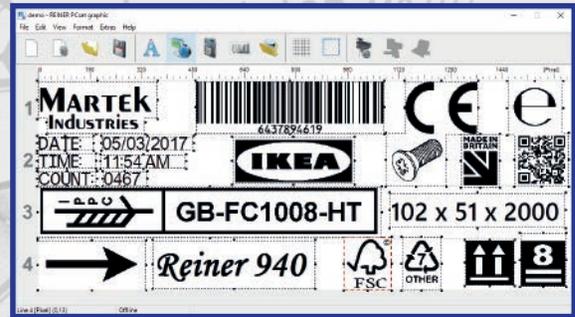

card - paper - metal - wood - foil - plastics - glass ...

## simple 3-step operation

**1.** Using Reiner PCset Graphic software included with the printer, create up to 4 print messages. Graphics, text in any font and point size, 2D codes and barcodes may be included as well as automatic date, offset date, time and counters. Transfer messages to printer via USB or Bluetooth.

**2.** Select the required print image using the dial on the printer. The printer can be set to print the same message repeatedly or cycle through all of the stored messages allowing different information to be printed on the product in different positions without touching the controls.

**3.** Roll the printer across the product surface and pull the trigger to initiate printing. The built-in encoder automatically adjusts the print speed to match the speed of operation ensuring consistent printing.

### Specification

<b>Print technology:</b>	Thermal inkjet
<b>Maximum print area:</b>	12.7 x 140mm
<b>Print resolution:</b>	300dpi
<b>Print speed:</b>	Up to 400mm/sec
<b>Text size:</b>	1 to 12.7mm in any font & point size
<b>Print contents:</b>	Text, graphics, barcodes, 2D codes
<b>Variable data:</b>	Date, time, offset date, serial numbers
<b>Barcode formats:</b>	EAN8, EAN13, ITF, 2/5 industrial, Code 39, Codabar, Code 93, EAN128, Code 128B
<b>Battery capacity:</b>	Up to 1,000 prints
<b>Print unit dimensions:</b>	47 x 147 x 221mm (W x L x H)
<b>Print unit weight:</b>	530g

### Inks:

<b>Water-based black:</b>	For porous surfaces e.g. paper, cardboard, wood, fabric...
<b>Water-based magenta:</b>	For porous surfaces e.g. paper, cardboard, wood, fabric...
<b>Solvent-based standard black:</b>	For non-porous materials including plastics, bare and coated metals, varnished cartons and foils.
<b>Solvent-based high resistance black:</b>	For glass and hard plastics when high resistance is required.
<b>Solvent-based UV:</b>	Invisible, UV-fluorescing ink for security marking porous or non-porous surfaces
